

Cambridge Refrigeration Technology

ATP and Road Transport Course

A course aimed at refrigerated road vehicles and other carriers of perishable products.

Scope:

This course presents a comprehensive understanding of the ATP agreement.

Objectives:

Participants will be given details of the main principles and specific terms that must be adhered to in order to meet ATP standards.

Certificates:

Participants who successfully complete the course will be issued with a course completion certificate.

Location:

The course is held at CRT's Training Centre in Cambridge. Course begins at 9:30am until 17:00pm.

This course could also be held in-house, provided that suitable facilities are available.
