

# Cambridge Refrigeration Technology

## Understanding Refrigerated Containers Course

A reefer course designed to give a complete understanding of the refrigerated container

### Scope:

This course is intended for people with little or no technical knowledge wishing to understand integral containers in order to be able to ask and answer questions of shipping lines, shippers and customers.

### Objective:

To provide both a theoretical and practical experience of integral containers.

### Location:

This one-day course is held at CRT's Training Centre in Cambridge. This begins at 9:30 until 17:00.

For enquiries and further information contact CRT direct on:
